THE 4th INTERNATIONAL CONFERENCE ON COMMUNITY BASED ADAPTATION (CBA) to CLIMATE CHANGE

Dar Es Salaam, Tanzania, 21-27 February 2010

Two days of field visits to community based adaptation projects in different ecosystems

Three days of interactive discussions on different thematic areas

AIMS AND OBJECTIVES

The conference aims to:

Share the latest developments in adaptation planning and practices, priority sectors and measures at different levels and disseminate knowledge among stakeholders and actors.

The specific objectives are:

- Bring different stakeholders and practitioners to share and discuss knowledge of Community Based Adaptation (CBA) planning and practices from different parts of the developing world, particularly Africa
- Capture the latest learning from CBA planning and practices around the developing world
- Enhance capacity of the practitioners to help the most vulnerable groups and people in improving livelihoods in developing countries
- Share lessons learnt to facilitate integration of climate change into national and international development programmes
- Disseminate lessons learnt at the conference through proceedings and immediate conference summary.

PARTICIPANTS & ABSTRACTS

The conference is open to anyone interested in community based adaptation. Attendance is limited to 100 participants. Participants from developing countries requiring funding should include this request when submitting an abstract. Abstracts should include title, author(s) with full contact address, and summary (max 200 words) of the presentation.

Please turn over for important submission dates

FIELD TRIP & MAIN CONFERENCE

Field Trip:

A two day field trip, visiting different sites in Dar Es Salaam to view CBA activities in different vulnerable ecosystems.

Conference - Interactive Discussion:

Each day will consist of a plenary session and number of parallel sessions (in French and English) of interactive discussions on a number of thematic areas, including:

- drylands and pastoralism
- urban areas
- insurance
- ecosystem-based adaptation
- gender
- communicating good CBA
- disaster risk reduction
- CBA methodologies
